

Musical Theatre Class

Our musical theatre after school program happens on Friday afternoons in two sessions. At three o'clock our program begins for children who are the 3-4 years old. The children in the younger age group spend a lot of time dancing and singing and playing with our puppets/stuffies. They really enjoy themselves, and are very physically interactive with the music. Even though these students are extremely young, they remember the song lyrics from the week before, and they quickly memorize the roles of their puppets. At three thirty our class for 4-6 years old begins. These children learn the more difficult material such as the poetry and more challenging music. In the older age group sessions the children are also involved in collaborating with Kristin to write new music, helping her with lyrics and ideas. They also spend some time doing dramatic movement. Kristin was a professional musical theatre actress in Canada for fifteen years, while also teaching musical theatre to elementary students in the public and private school system there. She especially enjoys teaching these afterschool musical theatre classes at New World International School because it gives her a chance to work with students in a small group in order to best develop their talents and interests in performing.
